Ahmad Addel *Junior JavaScript developer*   Ad Dilinjat, 22762 • (+20)1019542373

a4addel@gmail.com • www.3adl.dev • linkedin.com/in/a4addel

Skills

Typescript • Node.js • ReactJs • NextJs (SSR) • Express.js • Tailwind CSS
CSS preprocessor (SCSS) • PostgreSQL • MongoDB • Git (version control)

Projects

1. ### *YouTube Downloader Telegram Bot*
   This bot allows users to download YouTube videos directly from the chat. Just send it a video link and it will download an audio or video and then merges them using ffmpeg. Built using **Node.js, JavaScript**, **Typescript** and **ffmpeg**.
   View on GitHub

2. ### *Drive Manager*
   *Drive Manager, a web application that allows users to easily manage and control access permissions for their Google Drive files and folders. Built with **Next.js**, **Ant Design**, **TypeScript**, and **Google Drive API** for secure connection and permission management. User-friendly interface for managing permissions and detailed views of current permissions.*
